

WARM TRANSITIONAL KITCHEN

AutoCAD / Revit / Datasmith / Unreal Engine 5 | 120-in run on a 144-in wall | 122-in counter | fixed window

FLOOR PLAN

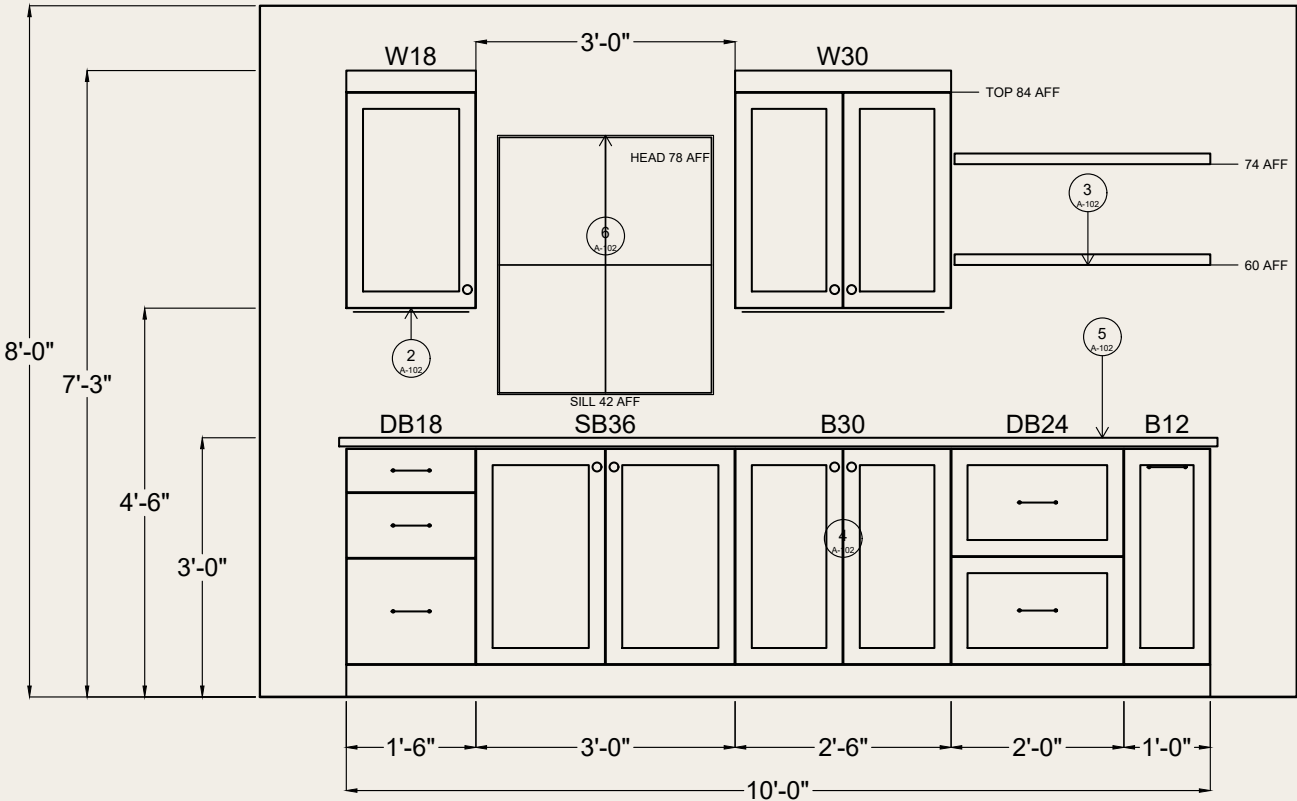

SCALE 1:24 | 1/2 IN = 1 FT | PRINT AT 100%

FINISH: PAINTED EXCEPT B30 + SHELVES = STAINED OAK | GRAIN PER A-102

FRONT ELEVATION

SCALE 1:24 | 1/2 IN = 1 FT

DESIGN AND MATERIAL NOTES

1. BASIS PRODUCTS SHOWN; VERIFY DATA AND FIELD CONDITIONS.
2. PAINT: BM ADVANCE, PRECIOUS IVORY 185, SATIN (LRV 70.38).
3. B30/SHELVES: RIFT-SAWN WHITE OAK; GF ANTIQUE OAK STAIN + CLEAR SATIN TOPCOAT, WATER-BASED (TBD/UNPRICED IF GENERIC).
4. CAMBRIA EVERLEIGH WARM, MATTE, 3 CM; TOP = 36 IN AFF.
5. SR3018 SINK CUTOUT/REVEAL PER PURCHASED TEMPLATE.
6. FIVE-PIECE FRONTS: 1/8 IN GAPS; 2-1/4 IN STILES/RAILS.
7. PULLS: BP36853CZ, 128 MM C-C; KNOBS: BP55342CZ; CHAMPAGNE BRONZE.
8. NO UNDER-CABINET LIGHTING; DAYLIGHT THROUGH WINDOW ONLY (R09).

BASIS-OF-DESIGN PRODUCT KEYS

- P-01 NANTUCKET SR3018 SINK, 30x18x10
P-02 DELTA 9159-CZ-DST FAUCET
P-03 CAMBRIA EVERLEIGH WARM, 3 CM
P-04 ANDERSEN 100, 2630; UNIT 29-1/2x35-1/2; RO 30x36
D-01 AMEROCK BP36853CZ, QTY 6
D-02 AMEROCK BP55342CZ, QTY 7
H-01 BLUM 71B3550 + 173H7100, QTY 14
H-03 BLUM 563H5330B + T51, QTY 5 PAIR
H-05 REV-A-SHELF 448UT-BCSC-8C
H-06 HOVR 18 IN; SHELF BOTTOMS 60 / 74 AFF

CABINET ABBREVIATIONS

- DB = DRAWER BASE CABINET
SB = SINK BASE CABINET
B = BASE CABINET
W = WALL CABINET
NUMBER = NOMINAL WIDTH IN INCHES
DB18 / DB24 = 18 / 24 IN DRAWER BASE
SB36 = 36 IN SINK BASE
B30 / B12 = 30 / 12 IN BASE
W18 / W30 = 18 / 30 IN WALL CABINET
AFF = ABOVE FINISHED FLOOR; C-C = CENTER TO CENTER

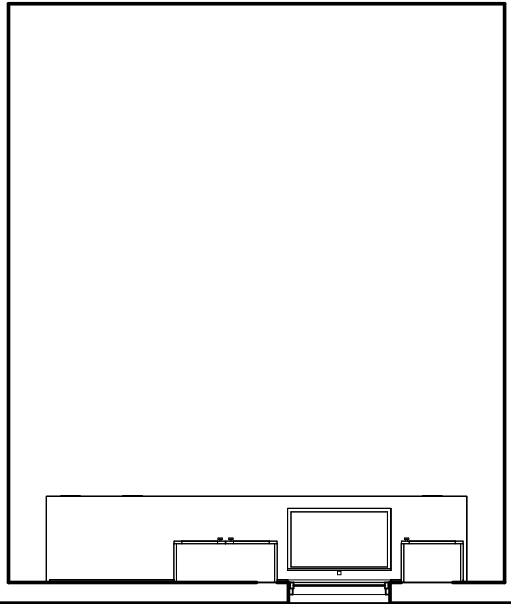

WARM TRANSITIONAL CUSTOM KITCHEN

Revit Cabinetry Model		
Project number	WTK	A-201
Date	2026-09-25	
Drawn by	S. Brown	
Checked by		Scale As indicated

MATERIALS AND CAMERA VIEWS SHOW THE DESIGN INTENT

Unreal Engine 5 visualization | warm ivory cabinetry, stained oak feature fronts, stone counter, and daylight.

WIDE / CABINET WALL AND WINDOW

The full sink wall composition, countertop, upper storage, and open shelves.

ANGLE / ROOM CONTEXT

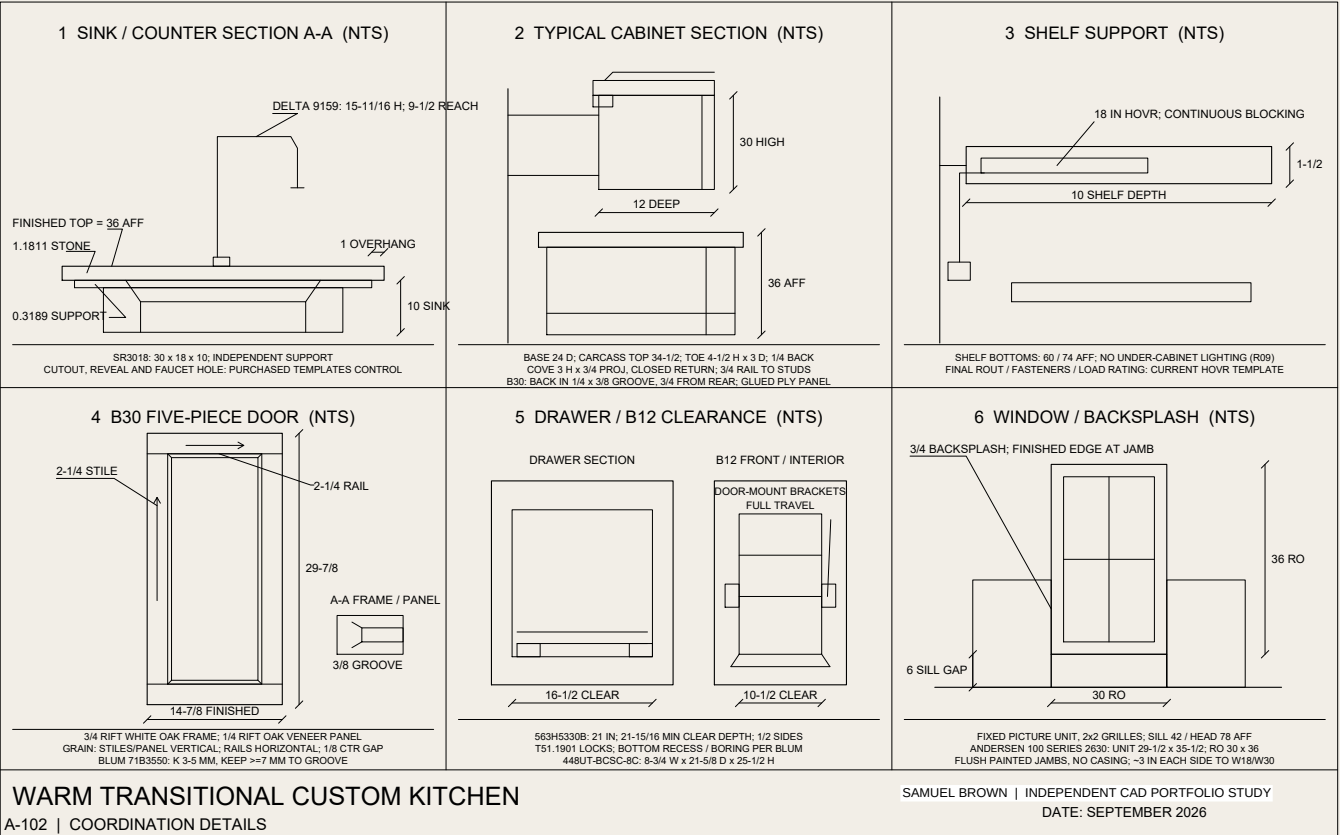

A second camera clarifies depth and exposed ends.

B30 DETAIL CONNECTS THE RENDER TO A CABINET CONCEPT

Detail view, complete AutoCAD coordination sheet A-102, exploded Revit-derived B30, and modeled net sizes.

RENDER DETAIL / STAINED OAK FRONTS AND HARDWARE

B30 / PORTFOLIO CONCEPT CUT LIST

Net modeled sizes (L x W x T, inches). No kerf or joinery allowance is added.

P03: MD also states 29-1/4 in fabrication-intent width for groove engagement; CSV/model net width is 28-1/2 in.

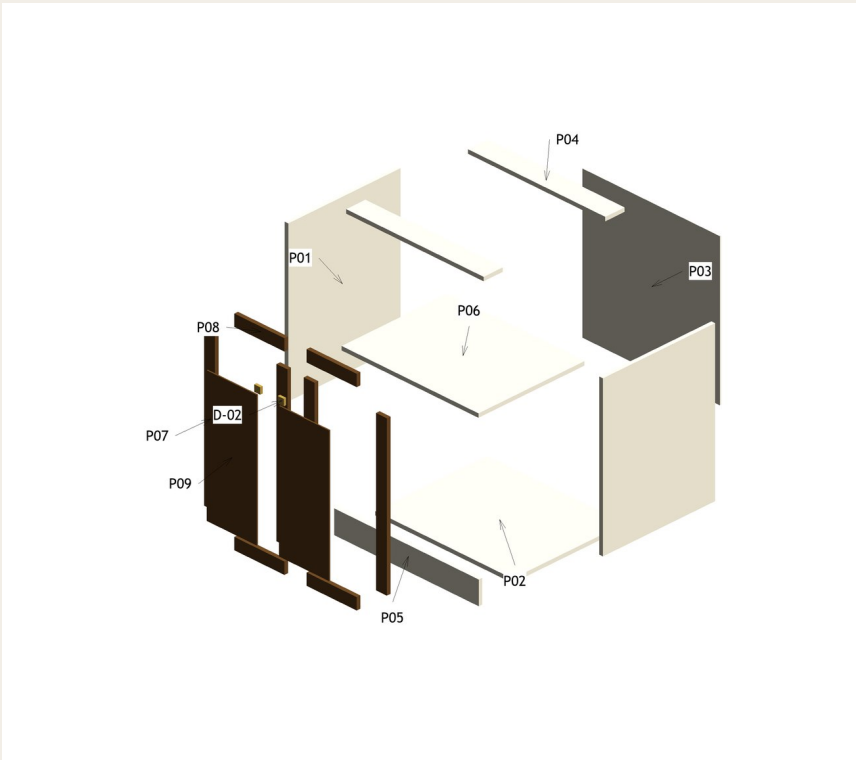

ID	Qty	Part	Net size (in)	Material / species	Grain
P01	2	Side (L/R)	30 x 23-1/4 x 3/4	3/4-in prefinished maple plywood	Vertical
P02	1	Bottom	28-1/2 x 23-1/4 x 3/4	3/4-in prefinished maple plywood	Front-back
P03	1	Back	28-1/2 x 28-1/2 x 1/4	1/4-in maple plywood	Vertical
P04	2	Top stretcher	28-1/2 x 4 x 3/4	3/4-in prefinished maple plywood	Length-wise
P05	1	Plinth front	30 x 4-1/2 x 3/4	3/4-in prefinished maple plywood	Length-wise
P06	1	Adjustable shelf	28-3/8 x 22 x 3/4	3/4-in prefinished maple plywood	Length-wise
P07	4	Door stile	29-7/8 x 2-1/4 x 3/4	Rift/quarter-sawn white oak	Vertical
P08	4	Door rail	10-3/8 x 2-1/4 x 3/4	Rift/quarter-sawn white oak	Horizontal
P09	2	Door panel	25-3/8 x 10-3/8 x 1/4	White-oak veneer-core plywood	Vertical

FABRICATION / PROVENANCE

Concept only, not fabrication-validated. Geometry is a corrected working-copy box model; the production Revit add-in was not updated.

Joinery is not modeled: add groove/tenon engagement per shop standard. Shelf count and 4-in stretcher width are flagged assumptions.

Verify field conditions, materials, hardware, and all joinery before shop release. Sizes are net as modeled; no kerf or sanding allowance.

B30 / EXPLODED MODEL VIEW
